

MOBILE ANCHORING SYSTEM SYAM®+SP® [AMPS+SP]

Use (see installation and operating instructions)

The **SYAM+** is a derivation option (to use with the mobile anchoring system SYAM) that allows deriving the anchor point on the outside to facilitate the stretcher exit

Technical specifications

- Standard PPE Category 3 – EN 795 Class B
- Usable by two people
- Light weight
- Pressure free on ceiling (can be used on any type of ceilings or false- ceilings)
- Up to 4m20 height
- Patented

Training :

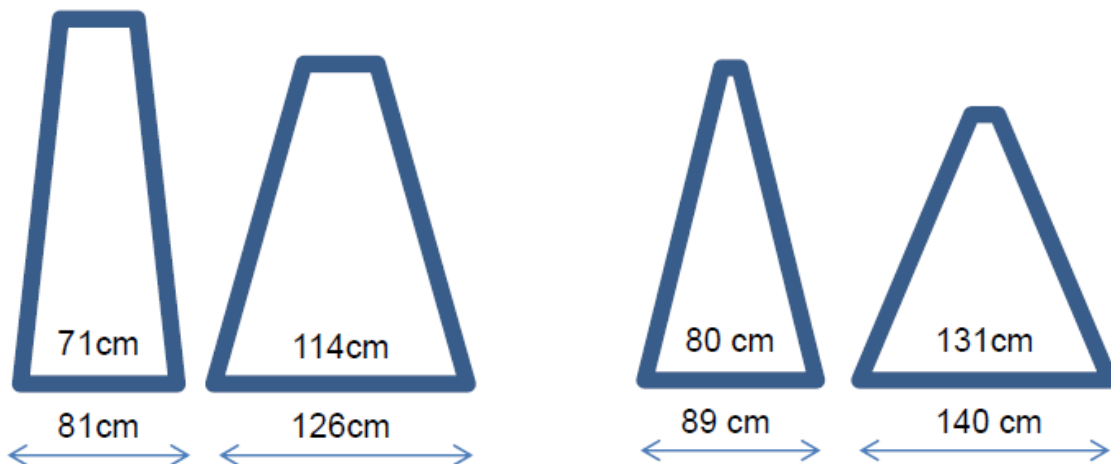

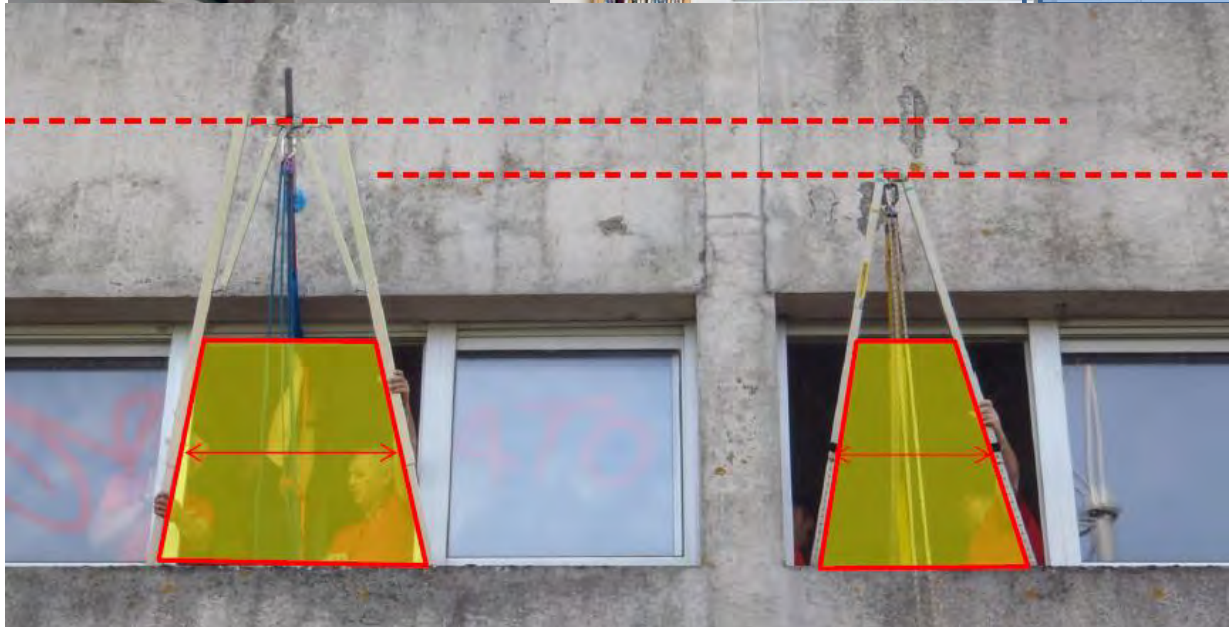

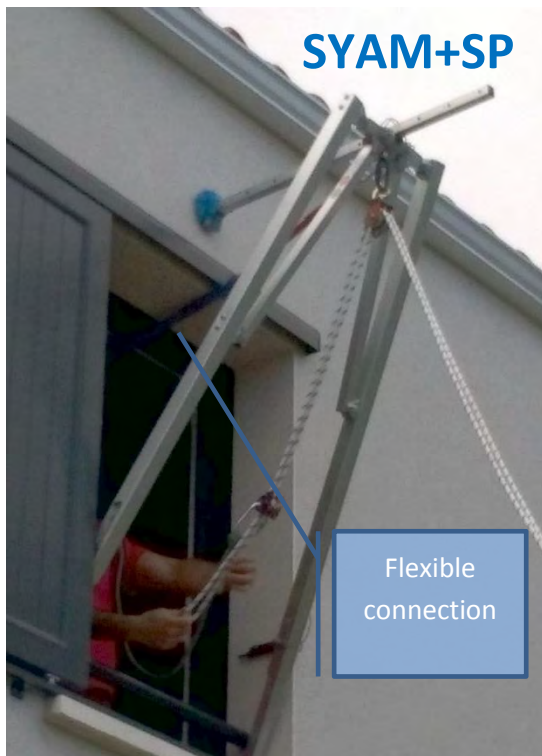

Mandatory technical training provided by the supplier in your premises

Benefits :

- Rucksack-transportable mobile equipment
- Quick installation
- Simple and simplified assembly
- Possibility of managing at discretion, the descent from the bottom or from the top (in the absence of low anchor).
- Fits any type of opening
- Offers a wide passage for a stretcher and high stability with an arm in support of the lintel
- Flexible connection between the SYAM and SYAM + SP
