

FOOTER XP

Ascender webbing with adjusting XP buckle. The XP buckle ensures easy adjustment of the length of the ascender strap. Made of 6 mm diameter accessory cord which provides the biggest advantage mainly in rescue situation at rope access.

DESCRIPTION

Accessory cord 6 mm.

The XP buckle provides an easy adjustment of the length.

Strap sewn in the buckle improves handling during loosening and tightening the strap.

Thanks to the quality rubber, the foot can be firmly and functionally fixed to the pedal.

KEY PROPERTIES

- XP buckle
- accessory cord 6 mm
- During setting the length, the XP buckle is still connected to the hand ascender. There is no movement over the functional length of the strap
- the blocking ring is forged without any joint.
